

OptoGlo Parking Signs

OptoGlo signs are bright **day or night** – making it easier for customers to find curbside pickup locations and designated parking spots.

OptoGlo signs feature breakthrough solar-powered lighting technology that eliminates the need for electrical wiring creating an easy-to-install, low-cost, customizable night messaging solution.

OptoGlo signs improve your customer's experience while communicating your brand's commitment to a more sustainable and energy-efficient future.

Thin. Wireless. Easy-to-install. Solar-powered Signs.

Designated Parking Signs: 18" x 12" x "3/8"

Create a powerful brand association by installing custom AHA compliant "Speedy" Signs.

OptoGlo Signs integrate solar sign componentry (batteries, solar cells, and lighting) into an amazingly thin print-ready sheet creating a new way to produce custom night-visible signs using OptoGlo's HP-Certified Printing Service. Learn more at www.optoglo.com/printing

Curbside Pick Up Signs: 18" x 24" x "3/8"

Clearly identify curbside pick-up parking with signage that shines bright at night while promoting an eco-friendly brand association.
